## Submitting programs to CCX CREATE via our NWCT FTP site

- 1. Create an .mp4 file of your program. Download a CCX CREATE release form from our website (found under Resources tab)—fill out and sign the form, scan it and save as a .pdf or .jpg file.
- 2. Install Filezilla program on your computer. (Free download at http://filezilla-project.org)
- 3. Open the Filezilla application. Enter Host, Username and Password in their respective areas.

4. Your computer files will appear on the left side of the window (Local site)—NWCT's site will appear on the right side (Remote site). Locate the "incoming" folder on NWCT's site.
